

ABSTRACT OF THE DISCLOSURE**ORIGIN DEVICE BILLING ACCORDING TO CALLER**

5 A method, system, and program for billing for service
provided to an origin device according to the current caller
billing plan. A trusted telephone network, including at least
one service provider, receives a request for service from an
origin device. The origin device is associated with a line
number to be billed for according to a line subscriber billing
plan. An identity of a caller requesting the service from the
origin device is authenticated. Then, a billing plan associated
with the authenticated caller identity is accessed and utilized
to replace or supplement the line subscriber billing plan, such
that billing for service provided at an origin device is
specified according to the caller currently utilizing the origin
device.
